Intuitive Predictions  
**November 2018**  
Roseline Deleu

**1. LIFE PATH, CAREER - Celebrating**

We celebrate a special event! A birthday, an anniversary, the birth of a child, an engagement, the start of a new love or the renewal of an old one. Whichever happens in our lives this month will certainly remind us that Love is All that counts.

**2. LOVE, RELATIONSHIPS - Same Direction**

We thought that our life was too much influenced by our stressful job. We finally realise that there is always room to welcome genuine and loyal love, through this partner who looks in the same direction than us and who sees possibilities. Where we are in our life today, is simply valid for today only! Move, change, grow, in a few months, once our love is blossoming, all and more become possible.

**3. RESPECT, FAMILY, HEALTH, PAST - Mediate**

Our tiny little cells badly need that we make time for a daily meditation (even only a short one). We'll feel much better and may well help solving high blood pressure challenges.

**4. ABUNDANCE, WEALTH & MONEY - Angel**

A little guardian angel is looking after our Lotto numbers. Gamble only once and only a small bet during November.

**5. YOU - Laugh**

Life sends us situations that are not always the easiest nor the happiest. It is only when we can start laughing about it that we learn! So, smile and laugh while de-dramatising.

**6. HELP, HELPERS, TRAVELS - Travels**

We would like to travel! Well, in November, we plan or go on a trip that we have dreamt for a long time. This dream travel comes to live. We prepare it one step at the time.

**7. IDEAS, CHILDREN & PROJECTS - Intuition**

Children's intuition grows rapidly. Listen to their words of wisdom. Let them express themselves freely. For our projects, follow we follow our intuition and common sense.

**8. SPIRITUALITY, STUDY, OPENNESS - Network**

Our network of friends - being people, angels, totem animals, plants, rocs... All is connected, they all speak with each other, all is in harmony. Like a spider web, all creation around us is perfect.

**9. WELL-BEING, SELF CONFIDENCE, RECOGNITION - Golden Platter**

The Universe knows exactly what we need and it brings it to us on a gold platter. The question is: Are we going to grasp those opportunities and make the most of them!?
